

Counting Happiness

BSG Statistics Department Monthly Newsletter

Commemorating November 18th, Soka Gakkai Founding Day

NOVEMBER 18: THE DAWN OF OUR SHARED MISSION

Dear Mathematicians of Happiness,

The month of November – the founding month of the Soka Gakkai – is upon us. Like the dawn that brings in the light of hope, this month reminds us to reaffirm our Great Vow for kosen-rufu

rufu with the spirit of “Cherishing Each Life”.

As statistics incharges, we are like gardeners of happiness, nurturing each member’s growth with sincerity and care. The data we handle are not

just numbers; they represent the heartbeat of our movement – stories of hope, courage, faith, and inner transformation. Each update and effort recorded on BDS reflects the pulse of our collective advancement toward happiness and victory.

Our focus from here on must remain clear – to deepen our faith through daily practice and inspire others to do the same. By taking lead in holding dialogues, doing shakubuku and encouraging each member, we fulfil our vow to our eternal mentor, Ikeda Sensei.

Sensei writes, **“It is the members of the Statistics Department – my comrades in our shared struggle – who, always together with me, helped to construct the golden history of kosen-rufu”** (BSG Statistics Department Handbook, p. viii).

Together with our mentor, let’s continue building that golden history – a history filled with smiles, victories, and the indestructible happiness of

every member. The time to act is now!

Sensei further reminds us, **“To ponder and worry about how you can help others become happy is in itself a truly noble thing, isn’t it? Such concern for others is the concern of Bodhisattvas of the Earth and the concern of the Buddha”** (Humanology of Victory, p. 5)

With this belief, let’s walk shoulder to shoulder in our **shared mission** – to cherish each life, to inspire hope, and to record the ever-growing brilliance of our movement for kosen-rufu. With BDS as our beacon, let’s advance joyfully toward the **5th BSG General Meeting on 30th November 2025** and the **BSG Intermediate Study Examination in December 2025**. Let’s support our comrades to register, study, and make a fresh, dynamic start toward **BSG 2030**.

Together, let’s transform statistics into stories of hope—and every number into proof of happiness!

- By ABACUS Editorial Team ★★

ETERNAL GUIDELINE FOR THE STATISTICS DEPARTMENT

“A membership card is not a piece of paper; it is the life of one person. In it, the life pulsates, the personality is contained, and the drama of awakening in faith and rebirth is played out. There exist the human-to-human bonds of warm trust. Because we have been cherishing each person to the utmost, we see the magnificent development of the Soka Gakkai today.”

- Daisaku Ikeda (December 15, 2002)

OPENING A NEW ERA THROUGH EXPANDING OUR NETWORK OF GOOD FRIENDS

Developing New Friendships

Nothing is more important in leading a positive life than having good friends. That is because advancing with good friends is a source of growth and fulfillment.

The first step is to be a good friend to others. Be sincere and treasure each of your friends, and enjoy making new ones as well, creating a growing circle of friendship.

My mentor, second Soka Gakkai president Josei Toda, used to say: “Youth call forth other youth—that is how kosen-rufu will be realized!”

Please open your hearts, meet new people, and build a network of youth that will illuminate the future.

Cherishing Old Friends

The year-end holiday season is the perfect opportunity to get together with old friends that we don't see so often. We can also stay in touch by sending greeting cards.

Our behavior as a person is first and foremost. Be the kind of person who is delightful to be around and makes a favorable impression on others. That will lead to lively dialogue, friendship, and helping others form ties to Nichiren Buddhism.

Chant to the Gohonzon to develop into a person who can get along with others and win their trust.

Based on chanting daimoku, deepen your friendships with others and continue making new friends who understand and support our movement.

Kosen-rufu is a struggle to expand positive connections with others.

I hope you, the members of the youth division, will always be wise, insightful, courageous, and bold, enacting a drama of friendship throughout Japan and around the world.

(Humanology of Victory, p. 100-102) ★★

BSG STATISTICS DEPARTMENT MOTTO

“With the heart of oneness of mentor and disciple, we cherish each life as Bodhisattva of the Earth and strive diligently towards the dynamic and eternal advancement of Kosen-rufu.”

WELCOMING NEW FRIENDS, CREATING VICTORIES THROUGH FAITH

Anuradha Singh
*District Statistics Incharge
Delhi East Area*

Scan to listen to
the experience

I began practising Nichiren Buddhism in 2010 and in March 2020, took on the responsibility of district chief and statistics incharge of a newly formed district. With fresh determination, I resolved to care for each member and maintain members data with utmost sincerity.

Ikeda Sensei's guidance has always been my compass. He says, **"A membership card is not a piece of paper; it is the life of one person. In**

it, his life pulsates, her personality is contained, and the drama of awakening in faith and rebirth is played out. There exist the human-to-human bonds of warm trust. Because we have been cherishing each person to the utmost, we see the magnificent development of the Soka Gakkai today" (BSG Statistics Department Handbook, p. v). These words became the foundation of my mission and continue to inspire my every effort.

In October 2020, a serious road accident injured my shoulder and made my left hand immobile for almost a month. Yet with unwavering faith and daimoku, I continued e-visiting members, attending study meetings and marking attendance promptly. Despite my limited technical knowledge, I created a handwritten list of members with their details as per MDS with the heart of reaching out to inactive members, ensuring no one was left behind. My determination to serve the members overcame every obstacle.

When offline meetings resumed in 2022, I challenged to transfer my 3 shakubuku members to their respective units. With the support from senior leaders and regular statistics meetings, I learned to handle transfers smoothly and respond promptly to pending requests.

When BSG transitioned from MDS to BDS, I quickly adapted to the new system and helped others learn it too. Through BDS, many processes became easy. I felt immense joy applying for the Gohonzon on behalf of members – three of them received it in 2024. The number of *value creation* journal subscriptions in my district also doubled, reflecting our growing unity in faith.

In July 2024, I was diagnosed with grade 2 breast cancer – a test of faith I chose to face with courage and prayer. I viewed this challenge as an opportunity to prove the power

of the Mystic Law and continued my responsibilities including marking the attendance throughout my treatment from home.

Before the completion of my treatment in February 2025, I was examined thoroughly by my oncologist and was declared cancer-free. Filled with deep gratitude, I took 3 new friends to the New Friend's meeting at the BSG Headquarters soon after. Over the past year, my district "Eternal Prateek & NRI 45" has joyfully welcomed 13 new members, striving to become soaring district. Ten members appeared for the Entrance Level Study Exam, and five new future division members have joined. It is heart-warming to see 10 – 12 cubs participating actively in meetings.

This year, four new leaders were appointed – two deputy block chiefs, one block chief, and one youth division district chief. All strive with the spirit of *many in body, one in mind*, determined to care for members and deepen their connection with the mentor and the law.

As a proud "**Mathematician of Happiness**," I am determined to maintain and update the BDS sincerely, help each member achieve their DHS targets with a joyful heart, and introduce one new life before the November 18th meeting. With this vow, I renew my determination to advance joyfully toward 2030 – treasuring every person, every number, and every heartbeat of kosen-rufu. ★★

Timely attendance marking is an expression of reporting victory to Ikeda Sensei by statistics incharges!

Introducing the zones where all the districts marked the '**Discussion Meeting**' attendance in the month of October 2025.

*We accord these zones as '**MATHEMATICIANS OF THE MONTH**' for October 2025.*

Q. How can we, as statistics incharges, support registrations for the upcoming BSG Intermediate Exam?

The **intermediate examination will be held on 14th December 2025, and the registrations will close on 15th November 2025.** This is a wonderful opportunity for us to deepen our understanding of faith and study. For the members appearing for study examination, Sensei encourages : **“Whether they pass the exams or not, I sincerely hope that they all become victors in faith”** (The eternal citadel of soka, p. 84)

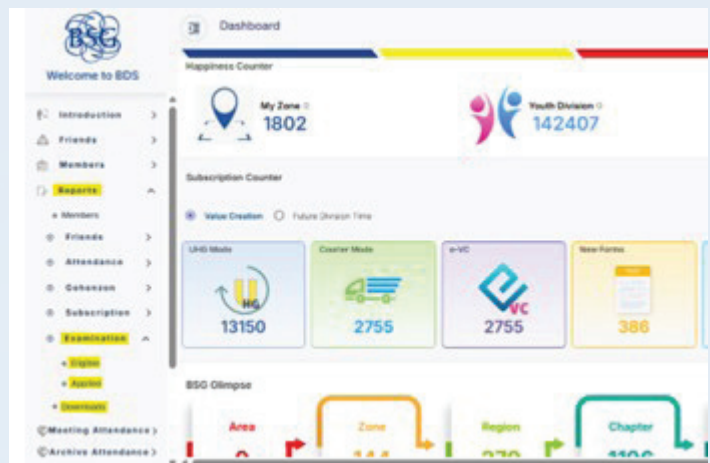

The study exams are not just tests of knowledge or intellect—they are milestones in our journey to strengthen the pillar of study and become victors in life. To encourage all the eligible members, let us as **statistics incharges** take the lead with compassion and determination, ensuring that all the eligible members in our unit register and appear for the study exam with joy and confidence.

Identify and Reach Out to Eligible Members:

There is a list of eligible and applied members available in the BDS. We can obtain both lists and identify members who are yet to register. Let's share this information with our co-leaders, reach out with warmth, encourage the members, and support them through registration.

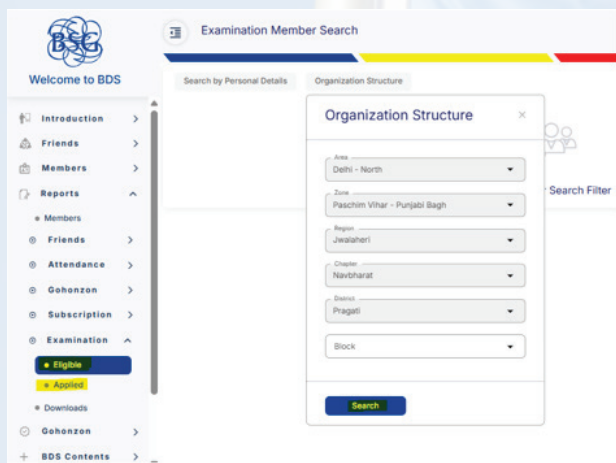

Let's see how to download these lists:

1. Login to BDS
2. Click on **Reports** and then on **Examination**
3. We have two sub-menus here – **Eligible** and **Applied** (See Image A).

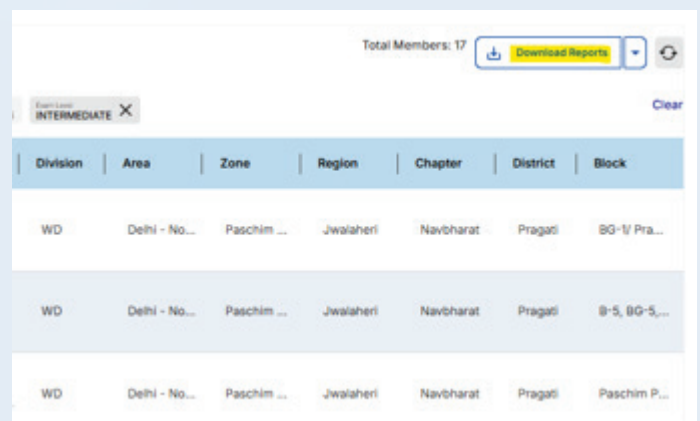

(A)

4. Click on **Eligible** and then on **Search** to get the list of the members eligible for the exam and similarly on **Apply** to get the list of those who have applied (See Image B).

(B)

5. Once the data is displayed on the screen, we can click on **Download Reports** on the top right. The file gets downloaded in the Download section of BDS. Click on **Downloads** in the left side menu and download the list to our device (See Image C).

(C)

Support Members with Registration:

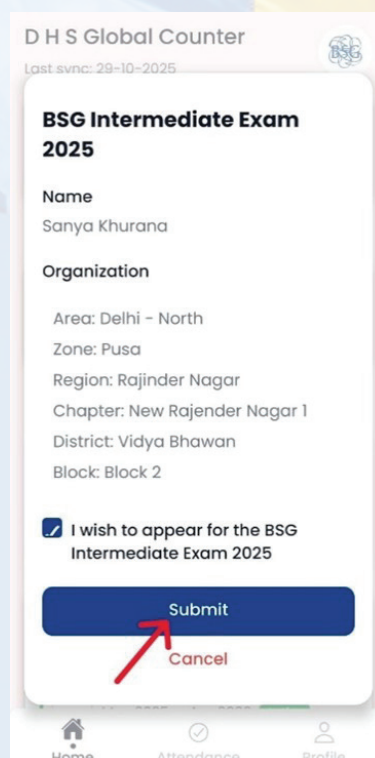

Let us proactively assist the members with the registration process. The steps to register are given below:

1. Login to BSG Connect Plus mobile app – available on  for all android users and on  for iOS users.

2. On the Homepage, we see an **Upcoming Exam** section. Simply click on **Register Now** under the **BSG Intermediate Exam 2025** (See Image D).
3. A pop-up window opens with our name and organisation. Check the box which says I wish to appear for the BSG Intermediate Exam 2025 and click **Submit** (See Image E).
4. We have now registered for the exam and can download the admit card by clicking **Download Admit Card** (See Image F).

(D)

(E)

(F)

As statistics incharges, let's become the ones who light the flame of seeking spirit in every member. Together, let's make the upcoming exam, a victory of faith, unity, and growth for every member of Bharat Soka Gakkai.

Let's encourage every eligible member to register and joyfully participate - becoming shining victors in faith!

ABACUS Editorial Team, in conversation with

Ranjana Ray Chaudhuri

Chapter Statistics Incharge, Delhi West Area

Please share your journey of being a statistics incharge?

Being a statistics incharge is nothing less than a good fortune for me in this lifetime.

Earlier as a leader, I focused mainly on encouraging members through home visits. But after becoming a statistics incharge, my perspective changed completely. I now study member profiles, analyse the statistics and understand the attendance trends for discussion and Gosho meetings.

This deeper insight helps me interact with members more effectively.

Further handling transfers – accepting them into the unit and transferring them out of the unit, has been a great learning process. Although, I come from a mathematics background, I never imagined statistics could be handled with such precision and care.

Being fostered well by my leaders, I understood the mentor-disciple relationship and that is how I could grow as a statistics incharge.

How has being a statistics incharge helped you personally?

As an engineering professor, I initially thought maintaining statistics would come very naturally to me. However, it also required a renewed determination to expand my potential.

This responsibility has helped me grow as a Bodhisattva, realizing that keeping track and caring deeply applies everywhere – at work, home, and in faith. One significant benefit has been in my personal life: my daughter, who struggled with health issues, has started taking care of herself better, doing regular walk and exercise. Through my inner transformation, I learned to guide her with patience and positivity. At workplace too, the long pending promotions materialized, which I see as a benefit of sincere efforts in faith.

Please share your experience of working on BDS?

Logging to BDS on almost every day has been a wonderful experience for me.

I attended all the training sessions on BDS conducted by BSG Headquarters and learned how to transition from MDS to BDS. During this time, I became chapter chief of the JNU chapter and also the chapter statistics incharge.

The JNU chapter membership has many students (*studying in JNU and IIT*) who keep moving in and out of the chapter. Due to their frequent transfers, BDS has been invaluable in staying connected with them. With the zone locator feature, the transfer

process has become so smooth – typing a city name or pincode shows the corresponding zone.

And the other thing is Gohonzon application process, which is seamless on BDS. Additionally, towards exams, we can easily extract the list of eligible members from BDS to encourage and support them. Overall, BDS is a great support for member care.

Do you read the ABACUS regularly? What do you think is the importance of ABACUS personally for you?

So firstly, for me ABACUS is a one stop source of encouragement.

I always look forward to the inspiring experiences of the statistics incharges and to the zones who have achieved 100% attendance marking.

This section is important and motivates me to inspire all my district statistics incharges to work relentlessly behind the scenes.

I feel there should be something more on fostering statistics incharges in the ABACUS – some direction on raising the next statistics incharge or how to encourage others to take up the responsibility as a statistics incharge.

What is your determination as statistics incharge towards 2030?

My foremost determination is to reach out to inactive members and bring them back to practice.

Towards 2030, I would hold at least 100 dialogues and carry out 20 shakubuku. I also resolve to foster at least 10 new statistics incharges by November 2026.

Here's a quick and fun way to sharpen your understanding of BDS and the role of statistics incharges! Mark each statement as **True** or **False**.

If a statement is False, please share the correct statement.

1. BDS was launched in November 2022.
2. The purpose of having statistics incharges at different leadership levels is to ensure shared responsibility among statistics incharges.
3. The role of district statistics incharge can be marked in the BDS by the region statistics incharge.
4. The proxy role of district statistics incharge can be assigned to any leader by helpdesk when requested.
5. Member deactivation on BDS can be done by any local unit.
6. Members deactivated as overseas comrades will not reflect in local unit statistics.
7. After the district statistics incharge submits the Gohonzon application, it goes to the applicant member for their consent.
8. Even though a chapter statistics incharge has the proxy rights of a particular district, they still cannot mark the attendance of the discussion meeting and Gosho meeting for that district.
9. For a chapter chief appointment, the interaction is marked in the BDS by the zone statistics incharge and appointment is marked by region statistics incharge.
10. A region statistics incharge can mark the attendance of the future division meetings using the BSG Connect Plus mobile app.

Please send your answers at statistics@bharatsokagakkai.org by 30th November 2025

LAST MONTH'S PUZZLE WINNERS

★ Vartika Agrawal – North India

★ Shobha Dube – Delhi North

ANSWERS OF LAST MONTH'S PUZZLE

1. **25 participants**
2. a) $84 \div 4 = 21$ **new friends**
b) $84 \div 3 = 28$ **new friends**
3. **6 friends became members**
4. **5 friends attended both March and April discussion meeting**
5. **7 friends become members by the end of June**
6. 10% of $100 = 10$ (duplicates)
 5% of $100 = 5$ (relocated)
 $100 - 10 - 5 = 85$ **members**
7. a) $18 + 12 + 9 + 15 = 54$ **new friends**
b) 20% increase of $54 = 10.8$
New friends (target) = $54 + 10.8 = 64.8 \approx 65$ **new friends for the chapter**
8. a) $42 + (50\% \text{ of } 42) = 42 + 21 = 63$ **final attendance for Victory district**
b) $8 \times 42 + 21 = 357$ **total attendance**
9. a) A: $5 \times 36 = 180$, B: $4 \times 42 = 168$, C: $3 \times 54 = 162$ **Total attendance = 510**
b) $510 \div 12 = 43$ **average attendance**
10. a) May introductions: $5 \times 2 = 10$ **new friends in May**
b) Total new friends introduced so far this year = Feb (3) + Mar (6) + May (10) = **19 new friends**
