

JOYFUL Initiative

ABACUS Editorial

JOYFUL INITIATIVE: ADVANCING KOSEN-RUFU CHEERFULLY

Dear Mathematicians of Happiness,
Many congratulations on holding successful and victorious May 3rd meetings in your respective districts! All of you continue to advance, encourage and strive towards our cherished goal of one million BSG members by 2030. With

the announcements of four division-wise campaigns toward July 3rd and August 24th, let us now unleash our true potential and create further waves of victory and happiness.

Ikeda Sensei writes, **"If we are going to challenge something, we may**

as well do it with a bright and positive attitude. It's no fun otherwise. When we make efforts on our own initiative and challenge our goals cheerfully, we will be filled with joy and an upsurge of energy" (WCHP-2, p. 219). At this pivotal point of June – the halfway mark in our journey toward achieving the membership goal of 3,50,000 – let us renew our determination and redouble our efforts. With our eyes firmly set and hearts united, this is the most decisive moment for us, the statistics incharges, to take the lead in supporting all four divisional campaigns. At the heart of our efforts lies one powerful word: *Initiative*. By taking joyful and proactive action, we embody the spirit of Sensei's guidance and open the way to victory.

Our mission as statistics incharges is to ensure that every life is truly embraced in the world of Soka. This includes engaging in heartfelt dialogues, introducing and bringing new friends to discussion meetings, adding them to the BDS, promptly responding to introductions and transfers received in BDS, sharing their details with the divisional leaders, teaching them Gongyo and daimoku, ensuring they

are invited to the meetings, and helping them grow in faith and practice till and beyond they have experiences.

This entire journey of cherishing each life must be carried out based on Sensei's guidance – to take initiative and engage in every activity joyfully and with a positive attitude. When our own lives overflow with initiative rooted in positivity and gratitude, that spirit naturally radiates to those around us, creating a ripple effect of encouragement and effort. Let's base all our actions on joyful initiative and strive to uplift every life we encounter. Now is the time to chant wholeheartedly and take bold, decisive action.

One of the most important aspects of staying positive is to remain true to our vow to advance kosen-rufu. This month, once again, let us renew our determination to move forward with the spirit of treasuring each individual, based on Ikeda Sensei's encouragement. Let's be trailblazers of kosen-rufu – those who transform every challenge into a great opportunity, grounded in the unwavering spirit of positive attitude.

- By ABACUS Editorial Team ●●●

BSG STATISTICS DEPARTMENT MOTTO

"With the heart of oneness of mentor and disciple,
we cherish each life as Bodhisattva of the Earth and strive
diligently towards the dynamic and eternal advancement of Kosen-rufu."

ETERNAL GUIDELINE FOR THE STATISTICS DEPARTMENT

"A membership card is not a piece of paper; it is the life of one person. In it, the life pulsates, the personality is contained, and the drama of awakening in faith and rebirth is played out. There exist the human-to-human bonds of warm trust. Because we have been cherishing each person to the utmost, we see the magnificent development of the Soka Gakkai today."

- Daisaku Ikeda

PRESIDENT IKEDA'S WORDS OF ENCOURAGEMENT

Excerpts from President Ikeda's writings from the feature titled "Day by Day and Month after Month."

Let's engage with others wholeheartedly and win in our efforts through the power of genuine sincerity. Let's leap out onto the stage of a new day, new challenges, and new connections.

- Essay series "The Song of Human Victory"

Only by persevering through hardships without being defeated can we reach the pinnacle of a truly meaningful life. Those who stay the course of their youthful vow to the very end are victors.

- Soka University and Soka Women's College graduation ceremony message, March 2015

Our work and our lives are the stage for our human revolution and efforts for kosen-rufu. So once again today, let's tackle the challenges before us, one by one, with courage and joy.

- Editorial, The Daibyakurenge, September 2012

When we chant Nam-myoho-renge-kyo for the happiness of ourselves and others, the benefit we accumulate flows on to numberless others with whom we share profound connections, including our ancestors and descendants. This is also the principle at work when we offer prayers for the deceased.

- Essay series "Our Brilliant Path to Victory"

Finding ways amid your busy schedule to encourage and motivate yourself and keep making fresh progress each day is the key to success in life.

- Encouragement series "Dialogue for the Future"

The essence of faith lies in joyfully devoting ourselves to working hard for kosen-rufu—whether or not anyone is watching—firmly believing that all Buddhas and bodhisattvas throughout the universe are surely aware of our sincere efforts.

- Essay series "Thoughts on The New Human Revolution"

- Excerpted from VC, Jun 2025, p. 27 ●●●

**FROM FEAR TO FULFILLMENT: MY JOURNEY
IN MEMBER CARE AND STATISTICS**

Parvati Chopra

**Region Statistics Incharge,
West Delhi Area**

Scan to listen to
the experience

In my 22 years of practice, I was never comfortable with technology. MDS and statistics always felt beyond me. But with encouragement from seniors in faith, I challenged this disbelief and assumed the role of region statistics incharge in 2024. This responsibility changed my perspective on member care and has helped me undergo my human revolution.

With the announcement of DHS, I took it as an opportunity to visit all the chapters in my region. I listed new friends and the newly transferred members and diligently chanted for each one. I also identified those who had moved away from the practice and visited them to encourage. As HDC, I helped identifying the members in my district who had not attended the meetings for over a year. Now, our block chiefs are joyfully visiting and encouraging these members.

Through BDS, I could identify members eligible for Gohonzon and guide them accordingly. I also learned various aspects of BDS such as marking graduations, marking the attendance of the Future Division/ Student Division meetings, and recommending and approving the new appointments. I trained myself thoroughly using BDS training videos on Vimeo. I am connected to the seniors in faith and chapter and district statistics incharges, extending support to each other. Each challenge has become an opportunity for my growth.

I'm happy to share that our region has seen an 18% increase in attendance, with two districts reviving inactive membership. Since January, 18 new friends have joined our region, out of which 8 have become members. Additionally, 12 new friends falling in our region attended the new friends meeting at BSG Headquarters in March and are being supported by chapter and district leaders.

Challenging to achieve our region's shakubuku target, every district is giving their 100% in holding dialogues. Following the same heart, I was able to introduce 2 new friends in this May 3rd meeting.

Nichiren Daishonin says, **"Where there is unseen virtue, there will be visible reward"** (Unseen Virtue and Visible Reward, WND-1, p. 907). I have experienced this firsthand. Two years after retiring, I have been offered a consultancy role at a well reputed firm. Also, my daughter has begun practicing after 20 years of me joining. She is now excelling in her career and secured a kosen-rufu job filled with beauty, benefit and good just before this May 3rd.

As a proud statistics incharge, I determine to treasure each member in my care, support them, and enable them to become victors of happiness. I further determine to do 5 shakubuku and foster capable successors across the region, striving wholeheartedly to achieve the goal of 3,50,000 members this year. ●●●

Mathematicians of the Month

Timely attendance marking is an expression of reporting victory to Ikeda Sensei by statistics incharges!

Introducing the zones where all the districts marked the 'Discussion Meeting' attendance in the month of May 2025.

We accord these zones as 'MATHEMATICIANS OF THE MONTH' for May 2025.

Q. What is the new feature 'DHS' on BSG Connect Plus Mobile App?

The theme and the activities of the year 2025 are based on **DHS – Daimoku, Home Visits and Shakubuku** and members across BSG are striving in all three activities. To help members maintain a personal record of Daimoku, Home Visits and Shakubuku, the three have been integrated into the **BSG Connect Plus** mobile app.

DHS – Home Page

There is a global DHS counter at the top of the home page which shows the count of daimoku, home visits and shakubuku recorded by all members across BSG.

D – My Daimoku

- Members can use this feature to record daimoku in two ways -
 - By using the timer – Start/Stop.
 - By manually entering their daimoku in hours or minutes (max 24 hours).

Further, members can maintain a record of daimoku chanted by them which can be seen under the 'History'.

My Daimoku

History Stats

Submit Using Timer

START

Submit Manually

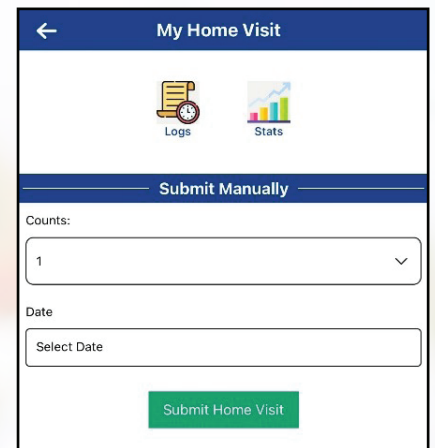

Hours: Mins:

Submit Daimoku

H – My Home visits

Members can use this feature to -

- i. Add the number of home visits done by them on a particular date.
- ii. Maintain a date-wise record of home visits done by them which can be seen under 'Logs'.

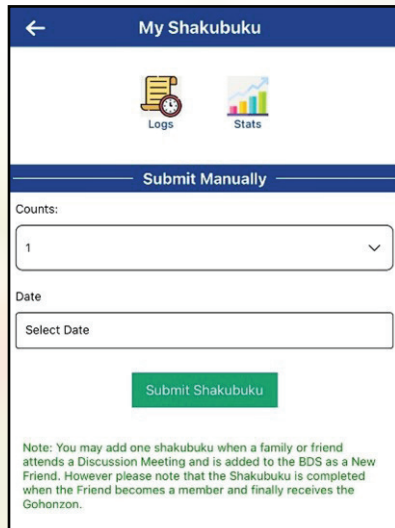

S – My Shakubuku

Members can use this feature to -

- i. Add the number of shakubuku done by them on a particular date.
- ii. Maintain a date-wise record of shakubuku done by them which can be seen under 'Logs'.

You may add one shakubuku when the person whom you wish to introduce attends a discussion meeting and is added to the BDS as a New Friend. However, it will be considered as a shakubuku only when the Friend become a member and receives the Gohonzon.

This feature is live and available on the latest version of the **BSG Connect Plus** mobile app which can be downloaded/ updated from  for all android users and from  for iOS users.

ABACUS Editorial Team, in conversation with

Oindrika Sur

District Statistics Incharge, East India Area

Please share your journey of being a statistics incharge?

Also, if you would like to share any success story?

I started practicing in 2017 as a student division member and soon began assisting my district leader with attendance marking. Then in 2019, I got appointed as a statistics incharge. Imbibing Sensei's guidance to respond with lightning speed, I always strove to respond promptly. However, I once missed marking the attendance of a meeting and later regretted it badly.

Seniors in faith encouraged me, saying that marking attendance is like personally taking care of each member. With that approach, I ensured I marked my district's attendance immediately after the meetings. On another occasion, a different leader guided me that keeping the MDS data updated is like keeping our lives up to date.

This helped me build the attitude of keeping the MDS updated especially for transfers.

How has being a statistics incharge helped you personally?

When I started working after my master's as a data analyst, I didn't realise the importance of documentation. But because I was maintaining and regularly updating the MDS, I applied the same practice to my work – and began keeping my projects and documentation up to date.

Please share your experience of working on BDS?

I have seen the transition from MDS to BDS and I find BDS very youth friendly.

It looks more GEN Z – colourful, bright and attractive, especially the graphs on the dashboard. I really like the new interface.

Do you read ABACUS regularly? What is the importance of ABACUS for you?

I read ABACUS regularly and share it with others. I feel happy whenever my zone's name or the name of a member from my zone appears in ABACUS.

I truly enjoy reading the experiences of statistics incharges, as I connect with their journey.

I feel the puzzle section can be made more engaging and vibrant to attract young readers.

What is your determination as statistics incharge?

I will continue updating BDS at lightning speed and chant more daimoku for all members – for inactive members to become active, and for new members, especially youth, to get connected to faith. *I want to mark their attendance in BDS by Nov 18!*

I am determined to complete my personal target of one million daimoku by July 3rd and also introduce 5 youth by November 18th 2025.

Puzzle for Mathematicians of Happiness

We've created a unique word puzzle for you! Hidden within the crossword grid are many words from our divisional campaigns toward July 3rd and August 24th – but only seven match the images you see below. Can you find the seven words connected to the pictures?

Enjoy discovering the connections. Happy puzzling!

Example: 😊 (5 letters)

Answer: HAPPY

- 1).  (7 letters)
- 2).  (8 letters)
- 3).  (9 letters)
- 4).  (10 letters)
- 5).  (7 letters)
- 6).  (9 letters)
- 7).  (6 letters)
