

Statistics Incharges
Advancing on the path of oneness of mentor and disciple

BRIMMING WITH THE SPIRIT OF MAY 3RD—TOGETHER TOWARD 2030

Dear Mathematicians of Happiness,

Heartiest congratulations to each one of you for holding the most joyful and victorious BSG Statistics Department General Meeting, marking the 10th anniversary of the BSG Statistics Department. Each meeting pulsed with the yearning to meet again, advance together and joyfully report our victories to Ikeda Sensei.

We take this opportunity to sincerely thank each one of you and wholeheartedly wish that your lives continue to bloom with fragrant flowers of happiness and victories. With such overflowing joy, we are certain that your May 3rd discussion meetings will fill your districts with hope, joy and victories.

Ikeda Sensei writes, **“May 3rd has been designated as the day of our great vow for kosen-rufu. Each time it arrives, it is a day for mentor and disciples to pledge together to carry out the widespread propagation of the Mystic Law, a day to embark afresh on our struggle for world peace and the happiness of humanity”** (Kosen-Rufu Our Mission-2, p. 47).

As the month of May unfolds, let us gently ask ourselves: “Have we made that great vow yet? Have we pledged with our

mentor for widespread propagation?” As statistics incharges taking the lead, let us reaffirm our vow to advance kosen-rufu by treasuring each precious life on BDS. Nothing would bring greater joy to Sensei than our behind-the-scenes efforts and victories rooted in faith.

Embracing the vow and spirit of our mentor, let us make a fresh departure towards our shared goal of achieving 350,000 membership this year and 1 million membership by 2030.

When Ikeda Sensei became the third president of the Soka Gakkai, he declared, **“Let the gods forsake me. Let all persecutions assail me. Still, I will give my life for the sake of the Law”** (VC, May 2025, p. 36). True to his vow, Sensei lived each day with youthful passion, striving tirelessly to fulfil his mentor's vision.

With the deep awareness that Ikeda Sensei is watching over each of us, let us joyfully determine to win again and again through our statistics activities – the foremost expedient means to achieve happiness for all our members.

BSG STATISTICS DEPARTMENT MOTTO

“With the heart of oneness of mentor and disciple, we cherish each life as Bodhisattva of the Earth and strive diligently towards the dynamic and eternal advancement of Kosen-rufu.”

BUDDHIST DIALOGUE SHINES WITH THE LIGHT OF HUMAN REVOLUTION

It is through talking and interacting with others that we truly develop as human beings. Dialogue means learning from and respecting others, which makes heartfelt conversation possible. Learning from others enriches us. In such rich discussion, there is joy, happiness, and peace.

Dialogue is itself a sign of human triumph.....

Of course, sometimes a friend with whom you talk about Buddhism may react negatively or emotionally, or you may find it difficult to help someone gain an understanding of our movement. As the Daishonin writes, to share the Mystic Law is to practice just as the Buddha teaches. It is the most difficult of all undertakings. But we gain the same benefit from enabling someone to hear about the correct teaching whether or not they immediately take faith in it. In either case, we are carrying out the supremely noble work of the Buddha.

There is no need to worry or feel bad if you don't achieve the results you hoped for. I have experienced the same thing myself. Again and again, I have wondered how best to communicate my message and reach another person. Once a friend sent back all the letters I had written him out of my sincere wish for his welfare. I felt sad and frustrated at the time, but now it is a fond memory of my youth. As you go through life, you will no doubt more keenly appreciate these words of the Daishonin: **"Single-mindedly chant Nam-myoho-rence-kyo and urge others to do the same; that will remain as the only memory of your present life in this human world"** (WND-1, 64).

Each day you chant and take action this way is a day of wonderful self-development, enabling you to turn even severe challenges into sources of growth. Such efforts form a shining foundation of faith in the depths of your life.

(Excerpts from WCHP-2, Chapter 18.3, p. 260-262) ●●●

ETERNAL GUIDELINE FOR THE STATISTICS DEPARTMENT

"A membership card is not a piece of paper; it is the life of one person. In it, the life pulsates, the personality is contained, and the drama of awakening in faith and rebirth is played out. There exist the human-to-human bonds of warm trust. Because we have been cherishing each person to the utmost, we see the magnificent development of the Soka Gakkai today."

- Daisaku Ikeda

**FROM PRAYER TO VICTORY:
THE POWER OF THE MYSTIC LAW**

Rajan Nandwani

**Region Statistics Incharge,
North Delhi Area**

**Scan to listen to
the experience**

I am practicing Nichiren Daishonin's Buddhism for 23 years.

As a Region MD leader, I got the wonderful opportunity to support as the Region Statistics Incharge. I consistently updated member records in BDS and ensured timely marking of attendance across all districts. To actualize BSG's vision of achieving 1 million membership by 2030, I have been regularly chanting morning and evening for each member in my region. I strive to deepen my faith through the daily study of NHR, conduct 4 to 5 home visits each week, actively support as a Soshokai, and diligently work in my district as HDC.

My twin kids (son and daughter) appeared for 12th board exam last year. Despite getting good marks, my son was unable to secure a seat in a government college and my daughter faced malpractice in the national medical entrance exam. Her life condition got low, and confidence had broken. Alternatively, she took admission in engineering course but did not continue for more than two days.

Ikeda Sensei says, **"We are certain to triumph in all our struggles if we make the spirit of the mentors of kosen-rufu our own and employ the "strategy of the Lotus Sutra"**" (c.f. The five eternal guidelines of the Soka Gakkai, p. 78). With Sensei's guidance and the encouragement of seniors, I chanted abundant daimoku for my children to follow the

path of their mission and become victorious. As a statistics incharge, I promptly transferred members to their respective districts and facilitated overseas transfers by assisting members in obtaining letter of introduction (LOI) from BSG Headquarters. I also supported introductory exams as zone exam coordinator and conducted study sessions for appearing members. This year, to ensure a smooth appointment process, we held sessions to train statistics incharges on the appointment flow in BDS. We also have been able to foster 12 youthful successors in our region.

My earnest efforts in faith produced significant results. My daughter has got admission to one of the best colleges of Delhi University whilst she is preparing for research in medical science. My son has got admission in one of the best private engineering college in his chosen field. Most importantly, both my children have started chanting and my daughter even appeared for BSG exam.

With deep gratitude to Gohonzon and Ikeda Sensei, I am determined to triumph by chanting 90 minutes daily, conducting 5 home visits per week and make my region – an ever-victorious region, where every life is overflowing with the benefit of the Mystic Law. Towards achieving the membership goal of 350,000 this year, I am determined to conduct one dialogue per week and shakubuku 2 lives by November 2025. ●●●

Timely attendance marking is an expression of reporting victory to Ikeda Sensei by statistics incharges!

Introducing the zones where all the districts marked the 'Discussion Meeting' attendance in the month of April 2025.

We accord these zones as 'MATHEMATICIANS OF THE MONTH' for April 2025.

10TH ANNIVERSARY OF THE BSG STATISTICS DEPARTMENT

Cherishing each life towards 3,50,000 members by 2025

As we commemorate 10 years of the formation of BSG Statistics Department (formed on 27th April 2015), we celebrate not only a decade of expansion of happiness but also applaud the sincerest and most dedicated efforts of each Statistics Incharge who has played an irreplaceable key role in advancing kosen-rufu across BSG.

Advancing with the same spirit, in addition to taking care of BDS and statistics activities, statistics incharges will also take lead in the frontlines of kosen-rufu. Today, let all of us start afresh to take an even greater step forward towards achieving a membership of 350,000 in BSG this year.

The most decisive moment is Now!

Ikeda Sensei says:

“Introducing new members and fostering capable people are like the two wheels of a bicycle. Only when both are moving in unison can kosen-rufu develop and grow.”

(NHR 2, Courageous Endeavour, 178)

Taking clear direction from Sensei's guidance, there are two aspects of advancing kosen-rufu - **“Introducing new members”** and **“Fostering capable people”**. As statistics incharges, let us take lead in **“Introducing new members”** who can then be fostered as capable people.

Contributing to the goal of 3,50,000 members, let us **become the true protagonists of holding dialogues, doing shakubuku and nurturing the new friends towards the historic goal of 3,50,000 members in 2025.**

Holding Dialogues

“When we wholeheartedly talk to friends about Buddhism.... joy wells forth and our state of life expands. This is because the moment we engage in Buddhist dialogue, the immense life of a Bodhisattva of the Earth pulses within our being”.

(NHR 7, Fresh Growth, 121)

Let each one of us joyfully **hold 2 heart-to-heart dialogues every month**. Let us also encourage members in our units to do the same.

Doing Shakubuku

“Through our practice of propagation, we can carry out our human revolution. Propagation is the direct path to transforming our destiny and that of society, and to establishing lasting peace and happiness.”

(NHR 7, Fresh Growth, 121)

Let us **take lead in doing shakubuku**; invite those we have held dialogues with to the discussion meeting and introduce them to Buddhism.

Nurturing New Friends

“If one nurtures a single seed, it will grow into a plant that will in turn produce many seeds; each of those seeds is the source for the generation of countless more. In the same way, everything begins with one individual. That is why it is so important to cherish each person. To value and treasure each individual is the key to achieving kosen-rufu.”

(NHR 5, Joy, 119)

As statistics incharges, let us **ensure every New Friend is cherished**, welcomed and warmly embraced in the world of Soka. Let us **promptly add them to the BDS**, invite them to the district meetings, mark their attendance and help them learn Gongyo & Daimoku.

Striving in the Frontlines

“In our activities for kosen-rufu as well, while passionately blazing with a shakubuku spirit, let us thoroughly exert ourselves in morning and evening Gongyo, attend meetings, give personal guidance, and conduct dialogue to encourage others.

Do what needs to be done and repeat these actions steadily. This is the loftiest thing.

(BSG Statistics Department Handbook, 54-55)

While we, as statistics incharges, are supporting behind the scenes, let us also take complete responsibility of advancing kosen-rufu in our units by taking the lead in all frontline activities.

ABACUS Editorial Team, in conversation with

Vikash Sinha
Zone Statistics Incharge, East Delhi Area

Please share your journey of being a statistics incharge?

Also, if you would like to share any success story?

I became a district statistics incharge in 2016. I am grateful to my seniors in faith for instilling in me the spirit of being a statistics incharge and encouraging me to learn different functionalities of MDS. I was encouraged not to fear mistakes and instead focus on learning. I enjoyed finding the right structure and raising quick transfers. After each transfer, based on daimoku, I would reach out to the concerned statistics incharge and ensure the transfer was accepted promptly. Such interactions became value-creating and encouraging exchanges, allowing me to interact with members across BSG.

While switching from MDS to BDS, I prayed for smooth transition. I trained district and chapter statistics incharges (DSI and CSI) in BDS functionalities. Many, even those averse to statistics or without IT backgrounds, now handle BDS joyfully and confidently. In this way, I could foster capable statistics incharges as I was once fostered.

HELP

How has being a statistics incharge helped you personally?

It has improved my ability to interpret data and make informed decisions. I have become more confident in dealing with new software and challenges, grown in patience and perseverance and developed a deep sense of pride in my work, regardless of recognition. It has also enhanced my precision

and promptness in responding to life's situations.

Please share your experience of working on BDS?

Working on BDS has been an enriching experience. Logging in regularly offers a complete view of my zone. It helps me analyse attendance trends throughout the zone and track friends-to-members. This way, I chant specifically for the areas of growth in my zone, plan home visits and devise focused action plan to achieve the set goals.

A simple step of pulling list of inactive members from BDS, praying for them and reaching out to them has brought many of them back to faith. This reaffirms the spirit of cherishing each life and respecting their Buddha nature.

Do you read ABACUS regularly? What is the importance of ABACUS for you?

Yes, I read ABACUS regularly. It offers concise guidance from Sensei, experiences, victory reports, etc. making it a powerful tool for statistics incharges.

What is your determination as statistics incharge?

My prayer is to instil in every statistics incharge the spirit of BDS—not as mere data but as lives to be cherished and attendance marking an act of honour, reflecting deep respect for members' sincere efforts. I am determined to ensure timely updates, zero backlog, and maintain BDS with sincerity to expand kosen-rufu in my area.

Puzzle *for Mathematicians of Happiness*

Dear Mathematicians of happiness, it's Puzzle Time!

Hidden within the below given Gosho passages are powerful teachings of Nichiren Daishonin. Let's deepen our understanding and strengthen Gosho study by filling in the missing words.

- 1) Rather than offering up ten thousand prayers for _____, it would be better simply to outlaw this one ____.
- 2) When it comes to studying the teachings of _____, one must first learn to _____ the time.
- 3) Carry through with your _____ in the Lotus Sutra. You cannot _____ fire from flint if you stop halfway.
- 4) When one encounters this sutra, one will _____ with happiness and shed tears of _____.
- 5) If you try to treat someone's _____ without knowing its cause, you will only make the person _____ than before.
- 6) You must pray to the heavenly gods with all your _____. Be ever diligent in your faith so that your _____ will be fulfilled.
